*A nice day for a ride. The Northstars in all their glory.  
From left to right, Sleepy, Dopey, Grumpy, Smelly, Hungry, Diesel, Fishy, Creaky, and Crampy.*

## Minutes Of The October 25<sup>th</sup> Meeting

9 members and 5 guests got the meeting underway at 8 oh clock on the Wednesday of the 25<sup>th</sup> just after most finished their dinner. Gretchen brought two men with her, that woman has quite an appetite.

One of the guests, Jim Cairnes has been on 3 rides but is sorely lacking in the attendance of meetings. He showed up and was in the room, Jim would occasionally talk rather loudly in a high falsetto voice but as this was mostly to himself, those in attendance were able to ignore him for the most part. But when he jumped up and started to do adult themed shadow puppets on the wall we knew he was Northstar material after all. This gives him one meeting under his belt.

## Events Up Coming

### Ride Reports:

Wendy took Alan's GTS out for a spin to the gold country with the riding group that leaves from Mission Motorcycles. She refers to them as the "Worlds Slowest Motorcycle Club". The ride itself was so slow that she had nothing to report, except early on she was busy playing with herself and lost track of time, every body got way ahead of her, the only thing to do was open up the 'ol GTS, big grin time, she said. As a side note Wendy (Mission Motorcycles) has since bought The GTS/VFR (along with a truck full of spares) for their very own. May they have as much enjoyment as I had, just don't let Brockway touch it.

Wendy then talked about her racing in Hollister. She races with team **BOOBS** (Bitches On Old Bikes). She came in LAST place in both races. At least she is consistent.

Pete and Brad left for Czechoslovakia supposedly to do some racing, Pete is the mechanic on this trip. In reality they are both commie pinko bastards and they both really miss the cold embrace of their mother country.

LISA went on a long ride outside on her motorcycle. The ride itself was the same old stuff, go, stop, turn, fall down. She only fell once, it was out in the dessert, mostly she was miffed at the red clay dirt that filled various cracks and crevasses as she was sliding along on her rump. The other high lights were she say her dad's grave and slept near Carrie Fisher's mom's bed. The best thing of all was the real nice photo album she put together, she took two cameras and was able to get both standard prints plus panorama shots.

Mike and Earl went to Quincy California in search of a virgin. They heard that there was going to be a new virgin up that way and they wanted to have first crack. When they arrived to their dismay the virgin was not ready for them. Mike said "They went to see the virgin, but only got to lick her toes". They did get to experience 18/30<sup>th</sup> of the virgin, but as far as Mike and Earl are concerned the virgin is still intact. Soon I am sure the beckoning call of the virgin will once again call to the boys and they will hot foot it to the smooth flanks of the virgin for that ride that only a virgin can provide.

Man I gotta get out more.

Allan Paul went on his second ride of the year, he did not fall or crash.

Guest Jim went on the Ridge Runner 500, he did not fall or crash.

Contact one of the above for further info.

Halton says,

Pat Moriarty and I ducked out of work last week  
and rode for two days up in Mendocino, Friday  
and Saturday Oct 20 and 21st. We got a motel in

Upper Lake. It sprinkled down on our ride up  
making the trails dust free and the air  
wonderful. I took my RM 125 and Pat took his  
XR 400. Anyone in the club who can hang with  
Pat M in the tight stuff can ignore this next part.  
Anyone who can't please listen up. Riding  
behind Moriarty for hours can really increase  
your learning curve when it comes to skilled,  
constant, smooth and relentless trail riding.  
Hard riding requiring proper breathing  
techniques, body positioning and correct  
selection of lines. Behind Pat I saw him  
consistently enter turns faster and more  
smoothly than I would and for hours I tried to  
emulate him, FINALLY getting a lot better and  
shaking off some bad habits by the end of day  
two. At a few points during both days I think he  
was towing me just below an enduro pace.  
What fun! If you would like to get better in the  
tight stuff ask Pat M if you can join him. He and  
I and my son Landis hope to get back up there  
(Mendocino) mid-December. Join us?

Northstars are entitled to one free booth at the  
CityBike Swap Meet December 10th.
